
Creating Sets

— Using Part-Whole Relationships —

**There are 9 circles
in this set. What
part of the set is
made up of the blue
circles?**

How many bears are
there in the whole
group?

How many different parts can this group be broken into?

Color or shade in 3 parts of this whole group.

**Create your own
group of at least 5
items. Label the
whole group and
each part.**
